Senior Web Developer

Younea S.à r.l. · Luxembourg · Remote · Full-Time

- Core developer on LetzChat V2, a multi-tenant WordPress SaaS plugin for AI chat, voice calling, tenant management, billing, and white-label customer deployments.
- Built a Python companion service (asyncio, Pydantic, PostgreSQL) that computes AI usage costs and feeds usage-based billing via signed webhooks.
- Built and maintained the React/TypeScript admin SPA using Redux Toolkit, Tailwind CSS, Shadcn/ui, and Vite with WordPress-integrated routing.
- Developed the backend PHP architecture with WordPress REST APIs, service/repository layers, dependency injection, scheduled tasks, and tenant-aware security checks.
- Implemented multi-tenant provisioning covering tenant registration, isolation, API synchronization, usage-based billing, and feature flags.
- Improved deployment across local, staging, and production using Docker, CapRover, GitHub Actions, and WP-CLI automation.
